For Immediate Release:

First Personal Finance Book Aimed at Affluent Investors Just Released!

Oak Hill Press is pleased to announce the immediate release of “Building and Preserving Your Wealth, A Practical Guide for Affluent Investors”. Written by Steven Podnos MD, MBA, CFP™, the book is easy to read, yet chock full of practical advice and concerns for those individuals and families who have accumulated wealth or have high incomes.

Topics include Estate Planning, Asset Protection, Tax Planning, Investment Advice and Educational Planning-with a focus on the issues faced by those with too much money to qualify for most tax breaks or government programs. The many ways that wealthy investors have different concerns from those with less affluence is discussed throughout the book. “In dealing with my clients who have done well in life financially, I discovered that there was no comprehensive source of information available in book form.” “The book is written for people, who like my clients, who have significant concerns about continuing to build their assets and reduce their risk of losses,” said Dr. Podnos.

Dr. Steven Podnos is a fee only wealth manager in East Central Florida. He works with an elite group of affluent individuals to help them manage all of their financial concerns. His firm Wealth Care LLC has the goal of “financial peace of mind.” More information is available at www.WealthCareLLC.com.

Building and Preserving Your Wealth is available at Amazon.com, www.BN.com and at Oak Hill Press (www.oakhillpress.com).

Media kits, headshots, book cover art and more are available on request.
